Electricity Facts Label (EFL)
Just Energy - 100% Green Free Nights - 24
For Service Area: Oncor
Date: 11/24/2026

	Average monthly use:	500 kWh	1000 kWh	2000 kWh
	Average price per kilowatt-hour	16.9¢	16¢	15.6¢

Electricity Price (Residential)	This price disclosure is based on the average usage levels above with an estimated 42% consumption during Night Hours. For example, we have assumed at the 1000 kWh average price calculation above that 420 kWh of usage (42% of the total 1000 kWh in the month) are consumed during the Night Hours. **Night Hours = 9:00 PM – 7:00 AM. Your bill will contain a credit for Energy Charges resulting from energy consumed during Night Hours.** • Energy Charge: 14.2¢/kWh. • Pass-Through TDSP Distribution Charge: 6.8673¢/kWh. • Pass-Through TDSP Customer and Meter Charge: $4.06 per month. • Base Charge of $4.95 per ESI-ID will apply each billing cycle. Your average price for electric service will vary according to your monthly usage. The price does not include federal, state, or local sales taxes or fees, reimbursement for the state miscellaneous gross receipts tax, other government charges, or all other non-recurring fees. Some locations may be subject to a TDSP Underground Facilities and Cost Recovery Charge authorized by their city that is not included in the total average price shown. For more details, see the TDSP service tariff for a listing of cities and authorized charges. **The credit for energy consumed during Night Hours is determined using interval usage data from your advanced meter, as provided by the TDSP. You may not receive credits for some Night Hours if the utility does not provide interval data at the time your bill is generated or if that usage is not billed. The credit may also not apply during billing periods with partial consumption billed under the terms of this contract due to the contract's effective dates.** This product includes 100% renewable content utilizing the company's "JustGreen" program. Under JustGreen, Just Energy purchases and retires renewable energy certificates or attributes to ensure that the equivalent of 100% of household electricity usage is offset by non-polluting sources such as hydro, wind or biomass and injected into the electricity grid. **Customers with distributed generation may not be eligible for this product, please refer to the Terms of Service statement for more details.** A Minimum Usage Fee of $4.99 will apply to billing cycles less than 400 kWh.
Other Keys and Terms and Questions	See Terms of Service statement for a full listing of fees, deposit policy, and other terms.

Disclosure Chart	Type of Product	Fixed Rate Product
	Contract Term	24 Months
	Do I have a termination fee or any fees associated with terminating service?	Yes; The Exit fee is $295 per ESI ID.
	Can my price change during contract period?	Yes, but only in the limited circumstances described below.
	If my price can change, how will it change and by how much?	Your price can change to reflect changes in TDU/TDSP charges, changes to the ERCOT or Texas Regional Entity administrative fees charged to loads or changes resulting from federal, state, or local laws that impose new or modified fees or costs on Just Energy that are beyond our control.
	What other fees may I be charged?	Please see the “Special Service Fees” and “JustGreen” sections of the Terms of Service for more details.
	Is this a pre-pay or pay in advance product?	No
	Does the REP purchase excess distributed renewable generation?	Yes
	Renewable Content	100%
	The statewide average for renewable content is:	37.2%
