Electricity Facts Label (EFL)
Just Energy - Solar Advantage - 12
For Service Area: Oncor
Date: 11/24/2026

	Average monthly use:	500 kWh	1000 kWh	2000 kWh
	Average price per kilowatt-hour	16.3¢	17.3¢	17.8¢

Electricity Price (Residential)

The Average Price per kWh includes a buyback credit for 477 kWh of Excess Energy, based on average monthly outflow for Just Energy customers. Your average price for electric service will vary according to your monthly usage, Excess Energy, and the pricing components below:

- Energy Charge:11.4¢/kWh.
- Base Charge: $14.95 per ESI ID will apply each billing cycle.
- Buyback Energy Credit: 6.00¢/kWh.
- Pass-Through TDSP Distribution Charge: 6.8673¢/kWh.
- Pass-Through TDSP Customer and Meter Charge: $4.06 per month.

This plan includes a Buyback Credit. You cannot receive buyback credits from both this plan and participate in Just Energy's Excess Generation Buy Back Program.

By enrolling in this plan, you agree to sell any **Excess Energy**, defined as electricity your renewable system sends to the grid beyond your real-time home usage, to Just Energy at the BuyBack Energy Credit disclosed above. Excess Energy is measured by your TDSP bi-directional meter and reported each billing cycle.

Buyback Credits (Buyback Energy Credit x Excess Energy) may offset up to 100% of your monthly Energy Charges, excluding base charges, TDSP charges, taxes, and fees. Credits appear on your bill once we receive your meter read from your TDSP, which may take up to three full billing cycles for new installations. Unused credits are banked and automatically applied to future Energy Charges, up to a maximum of $500 while enrolled on this plan. Banked credits have no cash, credit, redemption value, cannot be transferred, and may be applied to past-due electric bill amounts.

Buyback Credits are based on interval usage data provided by your TDSP. Credits may not apply if interval data is unavailable when your bill generates, if usage is not billed, or during billing periods where only partial consumption is billed due to the contract's effective dates.

To receive the Buyback Credit under this plan you must (i) have a fully executed Interconnection Agreement in place with your TDSP and a load profile with a “PV” designation, confirming that the premise has solar generation; (ii) have a TDSP installed bi-directional meter that separately measures the in-flow and out-flow of electricity to and from your home (your TDSP may assess a charge for this meter, which would be passed through to you on your Just Energy bill); (iii) have grid-connected renewable generation equipment, as defined in section 39.904(d) of the Texas Public Utility Regulatory Act, with a maximum generation capacity of 25 kilowatts or less.

The average price per kWh does not include a JustGreen charge.

The price does not include federal, state, or local sales taxes or fees, reimbursement for the state miscellaneous gross receipts tax, other government charges, or all other non-recurring fees.

Some locations may be subject to a TDSP Underground Facilities and Cost Recovery Charge authorized by their city that is not included in the total average price shown. For more details, see the TDSP service tariff for a listing of cities and authorized charges.

Other Keys and Terms and Questions

See Terms of Service statement for a full listing of fees, deposit policy, and other terms.

Disclosure Chart

Type of Product	Fixed Rate Product
Contract Term	12 Months
Do I have a termination fee or any fees associated with terminating service?	Yes; The Exit fee is $375 per ESI ID..
Can my price change during the contract period?	Yes, but only in the limited circumstances described below.
If my price can change, how will it change and by how much?	Your price can change to reflect changes in TDU/TDSP charges, changes to the ERCOT or Texas Regional Entity administrative fees charged to loads or changes resulting from federal, state, or local laws that impose new or modified fees or costs on Just Energy that are beyond our control.

Disclosure Chart	What other fees may I be charged?	Please see the “Special Service Fees” and “JustGreen” sections of the Terms of Service for more details.
	Is this a pre-pay or pay in advance product?	No
	Does the REP purchase excess distributed renewable generation?	Yes
	Renewable Content	22%
	The statewide average for renewable content is	37.2%
