	The total bill credit that can be received during the contract term is \$400.00, which will be applied in increments. One incremental credit of \$200 will be reflected on the first September bill issued each year during the term of this agreement. If the total September bill is below \$200, then the total bill in September will reflect a credit balance that will be applied to the next bill until the entire \$200 credit balance is exhausted, provided that the customer does not forfeit the credit. Any bill credit or credit balance will be forfeited by the customer if 1) there is a past due account balance at the time each credit or credit balance is applied, 2) the customer terminates the contract early, or 3) the customer changes to a different plan before a credit is applied. Bill credits cannot be used toward deposits. The bill credit cannot be exchanged for cash or gift cards.
