

TERMS OF SERVICE

This document ("Agreement") sets out the Terms of Service for the purchase of electricity between Tara Energy, LLC ("Tara Energy", "we" and "us") and you, the customer ("you", "your" and "Customer"). Customer and Tara Energy may be referred to individually as a "Party" or collectively as "Parties" herein. Your electricity requirements at the service location or ESI ID designated by you on your Enrollment or Renewal Form will be served under this Agreement. This Agreement shall not be applicable to Customers who have a time of use meter.

Tara Energy is your Retail Electric Provider ("REP"). Tara Energy sets the charges you pay for retail electric service. The electricity that Tara Energy sells to you must be transported to your service location over transmission and distribution systems which will continue to be regulated by the Public Utility Commission of Texas ("PUC") and owned by a Transmission and Distribution Service Provider ("TDSP"). The PUC reviews and approves the rates that the TDSP can charge to transport and distribute electricity to your service location. These charges are passed on by Tara Energy to you, the Customer, along with certain charges and fees assessed by the Electric Reliability Council of Texas ("ERCOT").

Types of Products

We provide electricity under three different product types: fixed rate, indexed and variable price. Your EFL specifies the product type and the term that applies to your contract. Please note that only those parts of this "Product Types" section that describe your specific product type will apply to your contract.

Fixed Rate Products. Fixed Rate Products have a contract term of at least three months. The price of a fixed rate product may only change during a contract term to reflect actual changes in TDSP charges, changes to the ERCOT or Texas Regional Entity administrative fees charged to loads, or changes resulting from federal, state or local laws that impose new or modified fees or costs on us that are beyond our control. Price changes resulting from these limited circumstances do not require us to provide you with advance notice, however, each bill issued for your remaining contract term will notify you that a price change has been made.

Term Indexed Products. Term indexed products have a contract term of at least three months and a price that changes according to a predefined pricing formula that is based on publicly available indices or information. The price for term indexed products may also change without advance notice to reflect actual changes in TDSP charges; changes to the ERCOT or Texas Regional Entity administrative fees charged to loads; or changes resulting from federal, state or local laws or regulatory actions that impose new or modified fees or costs on us that are beyond our control.

Month-to-Month Indexed Products. Month-to-Month indexed products have a contract term of thirty-one (31) days or less and a price that changes according to a pre-defined pricing formula that is based on publicly available indices or information. The price for month-to-month indexed products may also change without advance notice to reflect actual changes in TDSP charges, changes to the ERCOT or Texas Regional Entity administrative fees charged to loads, or changes resulting from federal, state or local laws or regulatory actions that impose new or modified fees or costs on us that are beyond our control.

Variable Price Products. The price of a variable product can change, without notice to you, after your first billing cycle at the sole discretion of Tara Energy. Variable price products have a contract term of thirty-one (31) days or less and a price that varies according to the method disclosed on your EFL.

Associations Members (If Applicable)

Tara Energy may be paying a management fee to your Association to help administer this benefit on behalf of membership. All questions regarding this management fee should be addressed to your Association.

Length of Service

Your service under this Agreement will begin on your next meter reading date according to applicable rules. In the event that your TDSP is unable to perform the switch as scheduled, you will continue to receive electricity service from your current provider and will not receive a bill from Tara Energy until the actual switch occurs. This date will appear on your first bill. Your initial length of service is indicated on your Enrollment or Renewal Form.

For term products, a contract expiration notice will be sent at least 14 days prior to the end of the initial contract term. If you fail to renew your contract with Tara Energy or switch to another REP, your service will automatically continue on a month-to-month basis after the expiration of your initial contract on the Default Renewal Product, which is a variable price product whose price will be determined by current market conditions until cancelled by either you or Tara Energy.

Option to Blend-and-Extend

The Customer may request Tara Energy to structure a new "blend-and-extend" contract that allows the Customer to benefit from the lower market rates in exchange for lengthening its term of contract with Tara Energy. Following such request, at Tara Energy's option, Tara Energy will structure and offer such contract to Customer, who may then choose to accept such contract. In the event that the Customer chooses not to accept the offered contract, Customer will continue to be served under its existing contract with Tara Energy.

Right to Rescission

If you are switching to Tara Energy from a different REP, you may rescind this Agreement without penalty at any time before midnight of the third federal business day after receiving this Agreement. PUC rules permit Tara Energy to assume that you will receive this Agreement three (3) federal business days after we mail it to you. You may call us or write to us to rescind this Agreement at 713-830-1019 or toll-free (866)-438-8272 and 5251 Westheimer Rd. Suite 1000, Houston, TX 77056.

Right to Cancel

Tara Energy may cancel your Agreement if you do not pay your bills in full and on time. We may also cancel this Agreement if we are no longer a REP in your areas or for any other lawful reason, including in response to changing market conditions. Tara Energy will provide you with written notice at least fourteen (14) days prior to cancellation.

Customer may cancel this Agreement without penalty in the event Tara Energy can no longer provide service. Customer may also cancel this Agreement without penalty by giving notice of a move to a different premise and providing reasonable proof of such move, including but not limited to a forwarding address. In the absence of such proof, Tara Energy will charge an Early Termination Fee as stated in your EFL.

Amounts owed by you to Tara Energy shall become immediately due and payable.

Billing & Payment

Following the switch to Tara Energy from your current provider, you may receive a bill for less than one month's service. After the initial bill, you will receive a new bill from Tara Energy each month for each ESI ID for which you are receiving service pursuant to this Agreement. Should you switch providers before the end of your billing cycle you will receive a bill for a partial month of service for the last month's service. Additionally, Tara Energy will bill you on behalf of your TDSP for the services the TDSP provides. All bills are due and payable 16 days from the date on the bill for service to all ESI IDs.

If actual charges are not available to Tara Energy at the time of preparation of your invoice, Tara Energy reserves the right to bill you on good faith estimates of charges for the month. If estimated charges are included on your invoice, they shall be identified as such and shall be reconciled against actual charges once Tara Energy has received such actual charges.

Breach

You will be in breach if you (a) violate a term of this Agreement or your utility's rules; or (b) switch to another REP during the term. By enrolling with Tara Energy, you are affirming to us that you provided your correct and complete name, address and contact information and you do not have any outstanding balance with us or our affiliated providers. If there is any evidence that any of these statements are or is found to be untrue or you otherwise provide fraudulent or misrepresented information, we may terminate this Agreement and your service.

JustGreen Product

Renewable energy certificates or attributes equivalent up to 50% or 100% of your electricity usage for a flat fee each month. If JustGreen is an option on your plan, then you may request to discontinue the use of JustGreen at any time, so long as you are not in breach of this Agreement. If the commodity plan automatically includes JustGreen, then JustGreen cannot be discontinued without switching plans. JustGreen may be suspended or discontinued by us at any time, in which case you would then stop paying for it, but the rest of this agreement will remain in effect. The JustGreen price is \$4.99 per month to offset 50% or \$9.99 per month to offset up to 100% of your energy usage with renewable energy if JustGreen is not automatically included in your plan.

Additional Charges & Fees

Tara Energy will charge a one-time late payment penalty of 5% for each delinquent month's charges that remain unpaid after the bill due date. Additionally, Tara Energy will charge 1) a \$30 fee for any returned check, electronic fund transfer or credit card transaction not processed due to insufficient funds or credit availability, 2) a \$22 disconnection notice fee for issuance of an electric service disconnection notice (this fee will be assessed regardless of whether your electric service is actually disconnected), 3) a \$20 reconnection fee in the event that Tara Energy processes a reconnection transaction on your account. Such fees are in addition to any disconnect/reconnect fees that may be assessed by your TDSP. and 4) For plan specific fees please refer to that plan's EFL.

Acceptance by us of any partial payment from you will not relieve you of your obligation to pay the full amount owed. You will be responsible for any non-recurring fees assessed by the TDSP and/or Tara Energy associated with requests for move-in or switch, self selected switches, disconnection and reconnection fees, previous billing errors, meter tampering or meter read errors, or other errors or omissions.

Cancellation Fee Reimbursement

If applicable and as disclosed during your enrollment, we will reimburse up to \$150 of your cancellation fee that your previous electric provider charges you. Once approved, the reimbursement will be applied to your electricity account with Tara Energy. Please note that if you switch away from Tara Energy within 12 months of the Start Date of your Agreement, the cancellation fee must be repaid to Tara Energy, and will be included on your final bill. Please send a copy of the previous electric provider's bill in one of the following ways:

Email – customersupport@taraenergy.com Mail – C/O Cancellation Fee Reimbursement Program, 5251 Westheimer Road, Suite 1000, Houston, TX 77056 Fax – 888.548.7690.

Payment & Discount Programs

In certain circumstances for which Customer must qualify, you may have the right to establish a payment arrangement or deferred payment plan with Tara Energy. A payment plan allows you to pay your bill after the due date, but before the next bill is due. A deferred payment plan is an arrangement between Tara Energy and a Customer that permits the Customer to pay an outstanding bill in installments that extend beyond the due date of the next bill. Tara Energy will confirm all deferred payment plans in writing.

Tara Energy offers an Average Billing Plan to give you the convenience of having a predictable monthly bill amount. To qualify for the Average Billing Plan, (i) a Customer must not be currently delinquent. Delinquent Customers should contact Tara Energy to determine if they qualify for the average billing plan. The average energy charge is calculated by using up to your last twelve (12) months' kWh usage multiplied by your current price per kWh, divided by twelve (12) months. This amount is added to your estimated monthly TDSP charges, your base monthly charge, and any applicable regulatory charges, assessments and taxes. Additionally, you remain responsible for any non-recurring charges from your TDSP. Periodically, but not less than once each year, Tara Energy will review your account and calculate a new average bill amount accordingly; any overpayment will be credited to your account or refunded to you, and any underpayment will be collected from you in equal installments over the next reconciliation period. You may opt-out of the Average Billing Plan at any time by paying your full balance due and providing written notice of your desire to be removed from the Average Billing Plan to Tara Energy. The Average Billing Plan does not affect your obligation to pay for all actual usage and other associated charges, taxes and fees. Failure to pay your monthly bill on or before the stated due date may result in Tara Energy proceeding with normal collection activities including the assessment of late fees, disconnection for non-pay, etc.

Additionally, if you need help paying your bill, you may qualify for additional low-income energy assistance programs in your community.

Tara Energy offers each Customer the opportunity to voluntarily contribute to a bill payment assistance program for qualified residential Customers. You may find more information about Tara Energy's bill payment assistance program on your billing statement.

Additional information regarding any of the aforementioned programs may be obtained by contacting a Tara Energy customer service representative at 713-830-1019 (or (866)-438-8272).

Default & Disconnection of Service for Nonpayment

If you fail to remit payment as specified above in Billing and Payment, Tara Energy may order the TDSP to disconnect electric service to the premise(s) served under this Agreement. You will be liable to Tara Energy for all billed amounts and any charges associated with disconnection of service for nonpayment and reconnection. We reserve the right to pursue all legal remedies available to us to

collect any amounts lawfully owed. In the event you fail to pay your bill in accordance with this Agreement, you agree to pay reasonable collection costs and expenses (including attorney's fees and third party collection fees) we incur as a result of our attempt to collect any amounts you owe.

In the event that you have more than one agreement with Tara Energy for service to ESI IDs not receiving service under this Agreement, any failure to pay under another agreement with Tara Energy will constitute a default under this Agreement and shall give Tara Energy the right to terminate this Agreement and seek any other remedy available to Tara Energy at law or in equity.

Credit Eligibility & Deposits

You authorize us to request, access, use, hold, transfer and update personal information about you (including contact, billing, credit history, and consumption information) and to obtain it from and provide it to your utility, our affiliates, business partners and service providers that may be in Canada or the USA, and to communicate with you about other products and services offered by us and our affiliates. By applying for service, you agree that Tara Energy may check your personal credit. Failure to demonstrate satisfactory credit, will allow Tara Energy to require a deposit prior to receiving service. You will not be required to pay an initial deposit, if you are at least 65 years of age and you do not have a current delinquent balance with your current REP, or if you have been a victim of family violence and can provide a certification letter pursuant to PUCT Substantive Rule §25.478(a)(3)(D) <http://www.puc.texas.gov/agency/ruleslaws/subrules/electric/25.478/25.478.pdf>. Customers who provide sufficient information to demonstrate that they qualify for the low-income rate reduction program may pay a required deposit that exceeds \$50.00 in two equal installments.

Additionally, you may be required to pay a deposit once service has begun if you have paid late twice or been disconnected during the previous twelve (12) months. The total amount of all deposits required shall not exceed an amount equivalent to the greater of one-fifth of the estimated annual billing for electric service or the sum of the estimated billings for electric service for the next two (2) months. The estimated billing for initial deposits is based on a reasonable estimate of the average usage for the applicable customer class. The deposit shall earn and be paid interest as per PUCT guidelines at the stated PUCT rate. Upon termination of the contract or twelve (12) consecutive on-time payments, the deposit, less any money owed, will be returned to the Customer.

Changes in Laws or Regulations

In the event that there is a Change in Law (as defined below), Tara Energy reserves the right to modify this Terms of Service. Tara Energy will provide you with fourteen (14) calendar days' advance written notice of any modification, either in your bill or in a separate mailing. The modifications will become effective on the date stated in the notice unless you cancel your Agreement in writing. You may cancel your Agreement without penalty no later than the effective date of the modification. Notice is not required for a modification that benefits you. Change in Law means any change in federal, state or local law or any legislative or regulatory action that imposes new or modified fees or costs on Tara Energy that are beyond Tara Energy's control.

A customer that registers for inclusion on the electric no-call list can expect to stop receiving telemarketing calls on behalf of REPs within sixty (60) days. The customer must pay a fee not to exceed \$5.00 to register at the time of registration by credit card, check or money order, as appropriate. Registration may be accomplished via the United States Postal Service at Texas No Call, P.O. Box 313, E. Walpole, MA 02032; Internet at www.texasnocall.com, or telephonically at 1-866-896-6225. Registration of a telephone number on the electric no-call list expires after five (5) years. A registered customer may continue to receive calls from telemarketers other than REPs, and the customer may instead or may also register for the Texas no-call list that is intended to limit telemarketing calls regarding consumer goods and services in general, including electric service.
